

Retail Markets 365PicoCooler Vision AI Smart Cooler

Overview

The 365 Retail Markets PicoCooler Vision AI Smart Cooler is a high-capacity smart cooler by 365 Retail Markets designed to deliver a seamless, unattended retail experience. Combining secure access, automated checkout, and flexible merchandising, it delivers a convenient grab-and-go retail solution for semi-public and high-traffic locations such as offices, healthcare facilities, fitness centers, and educational spaces.

Its spacious shelves and open product display make it easy to merchandise a wide variety of items. Operators can stock bottled beverages, sandwiches, salads, snacks, and other fresh options across its five-shelf refrigerated layout, giving customers a wide selection to choose from. This flexibility helps reduce stockouts, engage customers, and increase overall sales.

The 365 Retail Markets PicoCooler Vision AI Smart Cooler utilizes computer vision and AI-powered product recognition technology to automate checkout. As customers remove items, the technology automatically identifies their selections without the need for manual scanning. Once the door closes, the cooler completes the transaction, allowing shoppers to simply tap, grab, and go.

The smart cooler remains locked until a cashless payment method is authorized. This controlled access design makes the 365 Retail Markets PicoCooler Vision AI Smart Cooler ideal for semi-public and transient areas, allowing operators to confidently expand into new locations.

Easy to install and simple to maintain, the 365 Retail Markets PicoCooler Vision AI Smart Cooler gives operators an efficient way to upgrade or replace outdated equipment. By offering fresh, convenient products through a smart cooler, operators can expand their reach and boost revenue while meeting growing demand for self-service retail.
